GVD Releases R2.0 Supporting Extensive Arrays of Functionality

On January 7th in Taipei Headquarter, GVD has officially released the latest HD NVR software R2.0, supporting more megapixel cameras, GVD E100 workstation and K200 Keyboard Control.

The latest version is considered to be the breakthrough technology of GVD. R2.0 has successfully supported more megapixel cameras, including Arecont's latest H.264 models, Bosch, Infinova and Messoa. It also supports GVD E100 workstation to control and manage on multiple HD NVRs up to 1000 IP cameras. Besides, GVD rolls out its first 4 axis Keyboard Control, K200 to organize multiple HD NVR and monitors for megapixel cameras. "We are confident with the new R2.0, GVD can easy satisfy the projects required digital CCTV Wall and professional joystick control keyboard in the central control room", said GVD Product Marketing Director Kevin Liu, who is the key man for GVD R2.0 releasing.
