- GVD demonstrates the revolutionary digital CCTV wall – E100 + K200.

## **GVD shines the IFSEC 2009 at Hall 5, booth E157**

GVD, the developer of upcoming HD NVR technology has amazed the audience in IFSEC, 2009 with the complete solution for IP surveillance.

In the best location of good traffic, GVD demonstrated the latest function of HD NVR, control workstation which supports multiple monitors and the joystick keyboard at each corner of the booth. In the exhibition, GVD officially introduced the latest R2.2 to European market. The R2.2 has camera support for more leading vendors include: Arecont, ACTi, IQinvision, Pelco, Vivotek, Messoa and more. Also, it has more multiple language support and powerful function for professional security keyboard with virtual matrix switch. The combination of GVD Control Workstation and Professional Joystick Keyboard is no doubt replacing the traditional multiplexer to a digital CCTV wall configuration. Via the exhibition, GVD has received lots of valuable and positive feedback from visitors.
